Summary

Junior Front-End Developer specializing in React.js, with hands-on experience building responsive web applications and integrating REST APIs using Axios. Skilled in JavaScript, React, and React Router, seeking an opportunity to contribute to real-world projects and grow professionally.

Education

Bachelor of Science in Computer Science at Helwan National University, Cairo, Egypt **2024 - Present**

Expected graduation: 2028. Third-year student focused on web development.

Skills

Languages: HTML5, CSS3, JavaScript (ES6+)

Frameworks & Libraries: React 19, React Router DOM, Vite, React Context API

UI Frameworks & Styling: Bootstrap 5, React Bootstrap, Material UI (MUI), Responsive Web Design

HTTP & State Management: Axios, RESTful APIs, LocalStorage, Async/Await

Tools: Git, GitHub, npm

Projects

E-Commerce Application • GitHub • Live Demo

Technologies: React 19, Vite, React Router, Context API, Axios, Material UI, Bootstrap 5, FakeStore API

- Developed a fully responsive React e-commerce application featuring 10+ routes including Homepage, Catalog, Product Details, Cart, Wishlist, Checkout, and User Account pages.
- Integrated REST API using Axios to dynamically fetch product catalogs and categories from FakeStoreAPI, implementing structured handling for API requests and loading states.
- Engineered client-side state management using React Context API (ShoppingCartProvider, WishlistProvider) to synchronize user actions across components and persist cart data in localStorage
- Implemented client-side routing and page navigation using react-router-dom for dynamic page updates without full page refreshes
- Designed modern storefront UI components by combining Bootstrap 5 for grid layouts, Material UI for interface elements, and custom CSS for responsive design.
